What does the SIP tell us about tender requirements?

Program Logic

A program logic is a visual representation outlining how a program is expected to run. It includes details such as the inputs, activities, outputs and outcomes.

Your Experience of Service (YES) Survey

The YES survey is a standardised national measure of mental health consumer's experiences. It supports quality improvement and service evaluation by gathering direct feedback from consumers about their experiences with a service. A version of the YES survey has also been specifically designed for community managed organisations (YES CMO survey).

Want to learn more? Here are some resources:

Compliance with Secure Local Jobs

The 'Secure Local Jobs' policy requires businesses to show how they will create jobs for the local community. Organisations should make sure they have a valid Secure Local Jobs Code Certificate, confirming that the standards in the Secure Local Jobs Code are met.
